Here are some comment to update the paper. Reminder that situation is changing rapidly and we will need to make another update prior to the hearing.

David will you please confirm this is correct in the AM? Full disclosure - Only reviewed the highlighted portion.

Yes, air and water sampling ongoing.

Yes, ASPECT deployed on 3/17 and continues to provide support.

TAGA deployed on 3/17 and arrived last Thu 3/21 (not today). Is it still deployed?

Yes, 2 types of foam initially used by ITC did not contain PFOS but not all foam used has been analyzed.

Since there are so many bayous in the area, I would specify "Some foam entered Tucker Bayou"

David do we already have a list of congressional inquiries? I know US Reps Garcia, Babin, Olson, Kildee (MI), and House E&C staffers.

Hi all,

Would you mind reviewing the highlighted language (with the comment bubble) in the attached ITC Fire fact sheet to ensure it is accurate and up to date? OCIR has requested all updated budget fact sheets back by 9am tomorrow. I apologize for the last minute request. Thank you in advance for your help!
